## TRINITY

Trinity is an 8th grader participating in the Pace Reach Program. Prior to joining Pace, she was often suspended from school for her behavior. Trinity began working with her Pace Reach Therapist by setting goals. She’s been an active participant in her therapy sessions and even attends the Girls Circle groups with her peers. Trinity has found her voice and uses it to advocate for herself and others. She also uses the decision-making skills she learned in therapy which have helped her make positive choices and embrace growth and change. Trinity is now motivated to make good grades and engage in extracurricular activities including the cross-country team at her school. She is proud of the young woman she has become and has dreams for her future.

## Reach Program Services

Pace Reach is a therapeutic and counseling program offering social, emotional, and behavioral health and support services for girls ages 11–17 and their families. Reach therapists provide services in partnering schools, homes and other community locations.
